

Clip-Ins AFTERCARE

PROPER AFTERCARE IS ESSENTIAL TO MAINTAIN THE INTEGRITY, APPEARANCE, AND LONGEVITY OF YOUR CLIP-IN EXTENSIONS. PLEASE REVIEW AND ACKNOWLEDGE THE FOLLOWING GUIDELINES:

HOW TO CARE FOR YOUR CLIP-INS:

Washing & Conditioning:

- Remove clip-ins before washing.
- Gently brush extensions with a wide-tooth comb or extension brush before washing to remove tangles.
- Wash extensions separately using sulfate-free, extension-safe shampoo & lukewarm water.
- Apply a lightweight, hydrating conditioner from mid-lengths to ends. **Avoid roots and clips.**
- Rinse thoroughly & gently squeeze out excess water. Do not wring or twist.

Drying:

- Lay extensions flat on a clean towel to air dry. Avoid hanging wet extensions by the clips.
- Do not use high heat from hairdryers; air drying is preferred to preserve hair quality.

Products & Styling:

- Always use a heat protectant before using hot tools.
- Limit use of high-heat styling (flat irons, curling irons) to prevent dryness and damage.
- Avoid applying styling products directly to the clips.

Brushing:

- Hold the base of the extension while brushing to avoid tension on the weft.
- Use gentle strokes starting from the ends and working up to the base.

Storing:

- Store extensions in a clean, dry place (preferably in the original packaging or a silk/satin bag).
- Ensure extensions are completely dry before storing to prevent mold or odor.

General Tips:

- Do not sleep, swim, or shower with clip-in extensions installed.
- Avoid excessive exposure to sun, saltwater, and chlorinated pools.
- Extensions may be colored or toned by a professional only; at-home chemical treatments are not recommended.

WHEN TO WASH YOUR EXTENSIONS:

1. Once a week, or when it feels like it needs a wash, completely up to you and what works for you.
2. A great way to do hair is to pick a day, wash your hair and thoroughly dry it, then flat iron or curl it.

USE PROFESSIONAL PRODUCTS:

- We carry Davines hair care products for your hair, they are PH balanced and help to maintain the longevity of your hair and are extension safe. We strongly advise and encourage you to purchase these products, of which we always have available at our salon or online on our website @Vagaro.pdxhairextensions.com
[Serum is the one product you will need the most]
- In the beginning of your hair extension journey, a serum may be all you will need once the extensions begin to get dry or frizzy you can add additional products according to your stylist recommendations.
